

Channels

Superstrut® Channels — Welding Combinations

All Superstrut® Channels are available in a variety of combinations — some are shown here.

Multiple channels are spot welded on 3" centers.

How to Order

10 and 20 ft. lengths — steel. Special lengths may be ordered.

Replace the 3 last digits of the regular channel catalog number with the designation of the desired combination.

Examples:

Two A-1200 channels back to back are ordered as A-1202.

Two A-1200 channels back to side are ordered as A-1202-C.

Specify desired finish or material.

**"A" and "B" Series back-to-back combinations are joined using Thomas & Betts' steel rivet joining process. The riveted channel is offered in standard GoldGalv®, stainless steel, painted, pre-galvanized and hot-dip galvanized finishes.

Hole Configurations Half-Slot Channel

CAT. NO.	DIM. (IN.)	GA.	STD. CTN.
