1-1/2 Inch Form 7 (LU) Conduit Elbow for Use with Rigid/IMC Conduit

- BlueKote Teflon based internal finish provides a slick, easy-glide internal surface which significantly lowers the amount of force necessary to pull wires.
- Eliminates rough internal surfaces that can cut into cable jacket, insulation and conductors during pulling and also reduces installation time and risk of installer strain.
- Triple-layer protection...including two layers of epoxy coating which stops corrosion in its tracks.
