

JIC PULL-THROUGH WIREWAY FITTINGS

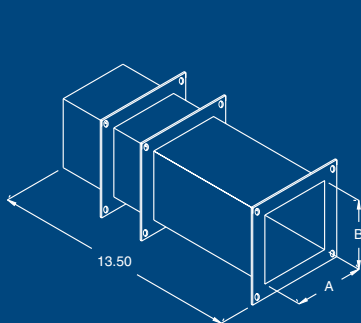

90° ELBOW

Allows a wireway run to turn at a 90° angle

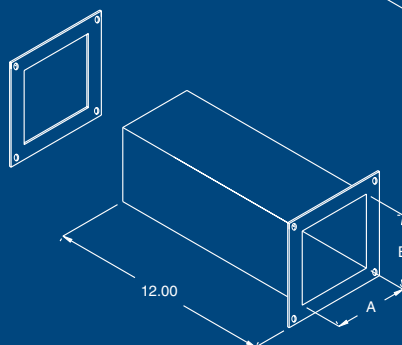

CROSS

Allows runs of wireway to intersect and cross or split off at 90° angles

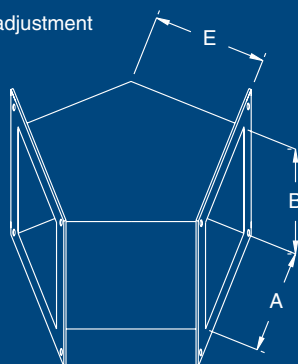

TELESCOPE

Allows easy adjustment for up to 12"

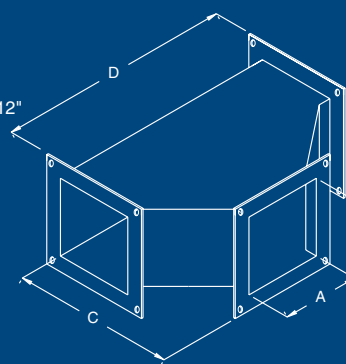

CUT-OFF FITTING

Allows user to cut off part of fitting and weld on flange to form a section between 1" and 12"

45° ELBOW

Similar to a 90° elbow but only makes a 45° turn

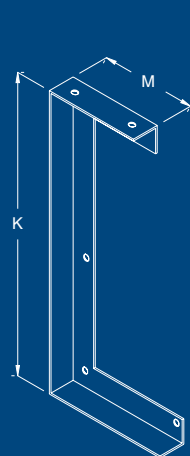

TEE

Allows runs of wireway to split off or come together at a 90° angle

DROP HANGER
Allows a run of wireway to be suspended from the ceiling

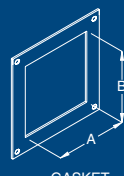

NIPPLE
Available in 1", 2", and 3" lengths

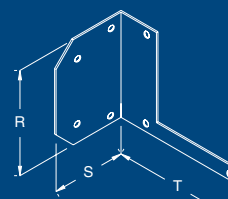

BOX FITTING
Used when wireway enters an enclosure on the inside of the enclosure to provide a tight seal

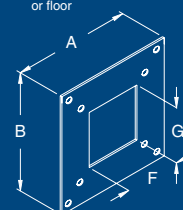

END PLATE
Used to close off the end of a wireway run

GASKET
Neoprene gasket used to provide a water tight seal between sections of wireway or between sections of wireway and fittings

BRACKET HANGER
Allows a run of wireway to be attached to the wall, ceiling, or floor

REDUCER
Allows reduction of a wireway run to a smaller wireway size
