

## Features and Benefits

### Power Charging Pedestals

Hubbell's On-the-Go Power Charging pedestals ships ready to install with four 20A 125V tamper-resistant USB Type A and Type C combination duplex receptacles, with a  $\frac{3}{4}$  inch NPT hub in the base and 36 inch long wire leads the assembly will accommodate all installations when fed from the floor below. The pedestal can also be mounted and wired over one of Hubbell's flush round floor boxes or single gang rectangular floor boxes.

Our 2 inch by 8 inch wing-shaped aluminum extrusion has a sturdy  $\frac{1}{4}$  inch thick aluminum base plate with four pre-drilled counter sunk holes for mounting. Because of its shallow design, the pedestals can be mounted between most back-to-back transportation seating arrangements.

## HUBBELL ON-the-GO CHARGING

### Power Charging Pedestals

(Front View)

(Side View)

#### Housing Design

- Durable powder coated aluminum extrusion offers a permanent solution for high traffic areas
- Ships ready to install

#### Power Stands

- Back to back 39.79 inch and 34.29 inch receptacle heights will clear backs of transportation seating chairs

#### Charging Power

- Duplex receptacles include Hubbell's patented tamper-resistant technology allowing the plug to slide in effortlessly
- Combination Type A and Type-C USB configuration meets most charging needs

#### Installation

- Integral  $\frac{3}{4}$  inch conduit hub in base
- Single circuit pre-wired assembly with 36 inch long #12 AWG wire leads
- Sleek 2 inch by 8 inch powder coated aluminum extrusion design at 52.40 inches tall

#### USB Ports

- Heavy-duty stainless steel USB ports are rated for 10,000 cord insertions and removals

#### Custom Branding

- Custom branding/graphics available for light kit
- Available with energy efficient LED light kit to add visibility
- Indoor use only

## Dimensions Inches (mm)

## USB Charging Receptacles Type-C • Type A&C • Type A

Hubbell USB Chargers are available in the new Type-C port, a combination unit with Type A&C, and the legacy Type A. All with the increase in power to a 5 Amp 5 Volt USB port adds capacity so that there is always ample current to support multiple device charging. Portable mobile manufacturers are using the faster Type-C ports. More phones, tablets and other electronic devices are expected to use this new standard.

- Compliant with USB BC1.2 battery charging and 3.0 power delivery.  
Compatible with USB 2.0, 3.0 and 3.1 devices
- USB Type-C port is legacy USB Type A compatible (adapter cord - not included)
- Heavy duty stainless steel USB ports; rated for 10,000 cord insertions and removals
- Patented Hubbell Tamper-Resistant technology uses cam action shutters
- Designed for commercial, industrial and home use
- Weather resistant receptacles Meets Section 406.9 of NEC®
- Weather resistant receptacles available in Type A&C USB ports only

## Weather Resistant USB Charger Duplex Receptacles

| Description                                                                                                                                                                           | Color                                                    | 15A 125V                                                                                                                           | 20A 125V                                                                                                                           |
