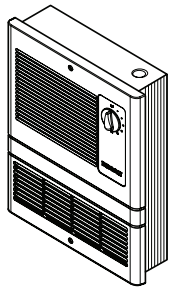
BROAN®

SPECIFICATION SHEET

MODELS 9810WH, 9815WH FAN-FORCED WALL HEATERS



FEATURES

- Attractive white grille - exceptionally durable and heat resistant.
- Quiet fan and downflow action circulates heated air quickly.
- Two models offer wattage choice: 1000W or 1500W. Heaters easily wired at installation for 120V or 240V. Over temperature protected by thermal fuse.
- Built-in adjustable thermostat. Quiet thermally-protected motor and transverse flow blower.
- Long-life bearings with extra large oil reservoir.
- Hang tab aids installation.
