

smartlockpro® **Extra-Heavy Duty Self-Test GFCI Receptacles** Industrial & Hospital Grade

Extra-Heavy Duty Industrial & Hospital Grade Self-Test GFCI Receptacles

Additional Features & Benefits

- Patented bridge contact design provides individual sets of contacts for GFCI receptacle face and downstream receptacles; no power will be delivered to receptacle face if improperly wired (line-load reversed)
- Improved immunity to high frequency noise reduces nuisance tripping
- Advanced electronics provides superior resistance to electrical surges and over-voltages
- Low-profile design is easy to install in all electrical boxes
- Patented SmartlockPro® protection prevents resetting when ground fault protection has been lost

New Revision to UL Standard 943 for GFCIs

Underwriters Laboratories (UL) standards now require newly manufactured GFCIs to be auto-monitoring (self-testing) by conducting an internal test to confirm that protected power is available.

Our complete line of Class A self-test GFCIs periodically conduct an automatic internal test to confirm that protected power is available. If the GFCI detects a problem, one or more of the following will occur:

- Power will be denied (trip with the inability to reset)
- Trip with the ability to reset, subject to the next auto-monitoring test cycle or repeatedly trip
- Visual indication

Status Indicator Light

Leviton GFCI devices feature an LED Status Indicator Light which provides a visual indication to the user of the status of GFCI protection. This is a convenient way to check the level of protection at-a-glance.

GREEN LED - NORMAL OPERATION

- GFCI has passed self-test and is providing power

RED LED - ALERT!

- Blinking - Initial self-test upon first power up
- Solid or blinking - Press TEST and RESET buttons to reset GFCI
- If GFCI will not reset OR solid or blinking red continues, replace device

NO LED - NO POWER

- GFCI in tripped state
- Press RESET button
- If GFCI will not reset, no power on the circuit

Extra-Heavy Duty Self-Test GFCI Receptacles

Ordering Information

Extra-Heavy Duty Industrial Grade Self-Test GFCI Receptacles - Wallplate Not Included								
Color	Cat. No.				Cat. No.			
	NEMA 5-15R				NEMA 5-20R			
	15A-125V @ Receptacle 20A-125V Feed-Through				20A-125V @ Receptacle 20A-125V Feed-Through

*Available upon special request

Available in the following configurations:

- Tamper-Resistant & Non-Tamper-Resistant
- Weather/Tamper-Resistant
- Isolated Ground/Tamper-Resistant
- Leaded/Tamper-Resistant
- Pilot Light/Tamper-Resistant
