

CONNECTION CABLE; LENGTH 0,5M; FLAT; CONNECTION OF BASIC UNIT TO CURRENT MEASURING MODULE, CURRENT/VOLTAGE MEASUR. MODULE, OPERATOR PANEL OR TO EXPANSION MODULES VIA SYSTEM INTERFACE

| General technical data:  |                                         |
|--------------------------|-----------------------------------------|
| product brandname        | SIRIUS                                  |
| Product designation      | Connection cable/length 0.5 m/flat      |
| Design of the product    | For connection of the system components |
| Ambient temperature      |                                         |
| • during storage         | -40 ... +80 °C                          |
| • during operation       | -25 ... +60 °C                          |
| • during transport       | -40 ... +80 °C                          |
| Certificates/ approvals: |                                         |

| General Product Approval                                                                | EMC                                                                               | Test Certificates                                                                           |                                                                                                | Shipping Approval                                                                          |
