

Conduit Bodies & Covers-PVC Coated

T&B Catalog Number:

UPC Number:

T27-G

Status:

70450840997

Description:

Active

3/4 in. Dark Gray PVC Coated Type T Form 7 Gray Iron Conduit Body and Cover.

Features

The conduit body and cover are double coated with a nominal .002" (2 mil) blue urethane on both the interior and exterior, before PVC coating is applied. A minimum of .040" (40 mil) PVC coating is bonded to the exterior.

Covers are coated with a molded flange to seal the conduit body while the conduit body is molded with a flat surface on its opening to seal with the cover.

Ocal pressure-sealing sleeves on all threaded hubs.

Ocal conduit bodies are shipped with a cover and encapsulated stainless steel screws.

Bodies are designed with a flat back, allowing more cubic inch capacity. The flat back also keeps the body more stable during installation, requiring fewer conduit straps.

Application

Act as pull outlets for conductors being installed

Provide openings for making splices and taps in conductors

Connect conduit sections

Provide taps for branch conduit runs

Make 90° bends in conduit runs

Provide for access to conductors for maintenance and future system changes

General
