

B-919 Right-Hand Gusset Connector

A technical drawing of a mechanical assembly. It consists of a vertical plate on the left and a horizontal plate on the right. The vertical plate has a U-shaped slot at the top and a circular hole. The horizontal plate has two hexagonal bolts on its top surface and two circular holes. A pin is inserted through the U-shaped slot of the vertical plate and one of the circular holes of the horizontal plate. The drawing is a line drawing with no shading.

The technical drawing illustrates a corner connector. The top part is a cross-section view showing two L-shaped profiles joined at a 90-degree angle. The bottom part is a perspective view of the same assembly, showing the profiles joined by four bolts. The profiles have pre-drilled holes for the bolts.
